📍 Montreal

SUMMARY

→ Results-oriented Senior Full-Stack dev (FE/BE/DB) with 6+ years of experience, Creating beautifully designed responsive web apps, APIs for microservices in Agile & Kanban methodologies.

→ Experienced in leading a production support team dealing with HPIs and CIRT incidents for a multi tenant environment Logistics application, which involved lot of Communication & Collaboration amongst onshore & offshore teams across the domain.

→ Strong attention to detail & Troubleshooting skills. Focused on writing predictable, readable and maintainable code. Familiar with the fast-paced versatile & end to end development environment.

EXPERIENCE

Tech Lead/Senior Node JS Engineer

Emtec, a BridgeNext Company

📅 03/2022 - Present 📍 Remote

- Started as a Senior Engineer and got promoted as a Tech/Team Lead after being with the team & supporting the client needs for sometime.
- Led multiple initiatives like introducing Auditing, converting enums to DDTs in a microservice architecture while maintaining backward compatibility, change management and clear communication to clients.
- Being a point of contact for any technical discussions and Regularly involved in internal client meetings, Backlog grooming, product discussions and helped product/BAs/clients to make better decisions.
- Experienced in facilitating the Daily scrums, various meets with other teams and closely working with fellow team members, understanding their needs and unblocking them as & when needed.
- Helped streamline a lot of processes with learnings on the go, involved & encouraged the team to have discussions on everything we do. Also helped in onboarding new members, did Knowledge Transfers, supporting them through tough times etc.
- Involved in developing and maintaining responsive web apps using React ecosystem, back-end APIs using Nest, TypeORM & GraphQL. Also integrated DBs like PostgreSQL and Redis/MongoDB as well as 3rd party apps with a willingness to do what's needed.
- Committed to a culture of Code Reviews, Testing to ensure quality & adherence to coding standards.
- Tools:** JavaScript(ES6+), React, NodeJS, NestJS, TypeScript(TS), Express, TypeORM, Apollo GraphQL, REST, PostgreSQL, Docker, Kubernetes, Azure Clusters, Kafka, Postman, Insomnia, GIT, GitHub Actions, JIRA, Jest, Cypress, PWA, Redux, React Hooks, React Router, Flexbox, Scrum, Kanban, WSL, Azure Data Studio, Lens

Full Stack Web Developer

ZeanPro

📅 01/2018 - 03/2022 📍 Remote/Montreal

- Collaborated with team members & Participated in all stages of development, testing & deployment encompassing the full stack.
- Well versed with TypeScript & took ownership to test Components with Unit & Integration tests using Jest & Cypress libraries.
- Good interpersonal skills and can communicate effectively with coworkers and customers alike.
- Tools:** JavaScript(ES6+), React, SPA, TypeScript(TS), NodeJS, Express, REST, PostgreSQL, Docker, Kubernetes, Postman, GIT, GitHub Actions, JIRA, Jenkins, Jest, Cypress, PWA, Redux, React Hooks, React Router, Flexbox, Scrum, WebPack, PgAdmin, WSL

SKILLS

JavaScript(ES6+)		React	Redux
TypeScript	NodeJs		NestJs
ExpressJs	TypeORM	SQL	
Launch Darkly		Apollo GraphQL	
REST APIs		PostgreSQL	NewRelic
GIT	GitHub Actions		Docker
Microservices		Kafka	Lens
Azure Clusters		Kubernetes	Hooks
React Router		Context API	PWA
HTML5	CSS3	Flexbox	SPA
Bootstrap	SASS	JSON	CSS Grid
JQuery	Jest	JIRA	Jenkins
Vue.Js	Redis/MongoDB		Enzyme
TDD	Cypress	Kanban	
NPM & YARN		React Testing Lib	C++
AGILE (SCRUM)		BASH/FISH	Next.Js
DataDog	AWS (Lambda)		Python
PostMan & Insomnia		Serverless	
Chrome Dev Tools		WebPack & Babel	

EDUCATION

Masters in Computer Science

Concordia University

LANGUAGES

English, Hindi, Telugu
